

Airl brings joy to my life. It gives my family, friends, and me a great alternative to the secular music of this world. Waking up everyday, the first thing I do is tune in to Airl; it gives me a refreshing feeling being able to just hear the songs of our generations being sung to the glory of God.

Airl has a great impact on our community. Flipping through the channels trying to find good stations that have clean lyrics and no vulgar obscenities is hard and it is such a relief to be able to just listen to Airl and not have to worry about what the artist are singing about or if there are any hidden meanings behind the songs.

Please reconsider your plans to expand this service in a way that would allow the new LPFM stations to take priority over current FM translator service. Losing the Airl radio stations would completely take any chances for the communities of this nation to be witnessed to by good nonstop Christian music. We all need this service to help us through our day and plead with you to not follow through with the proposal that Low Power FM has proposed to expand this service in a way that would allow the new LPFM stations to take priority over current FM translator service.
